VINEGAR BITTERS

FANCY DRINK, Madeler Prop Run. Whitskeys, Proof Spirits and Refuse Liquid's decirot-injeed and sweat ened to please the taste, called "Toutes," "Appetiters," "Restorers," a.c., that lead the tippler on to runkenness and rein, but are a rule Modieine, made from the Native Roots and Herbs of California, free from all Alcohelle Stimulnuts. They are the GREAT BLOOD PURIFIER and A LIFE GIVING PRINCIPLE a perfect Renovator and Invigorator of the System, carrying off all poisonous matter and restoring the blood to a healthy condition. No person can take those Bitters according to direction and remain long unwell.

\$100 will be given for an incurable case, provided the bones are not destroyed by mineral pelson or other means, and the vital organs wasted beyond the point of repair.

**S100 will be given for an incurable case, provided the bones are not destroyed by inheral polson or other means, and the vital organs wasted beyond the point of repair.

For Inflammatory and Chronic Rhenmatism and Gout, Dyspensia or Indigestion, Billons, Remittent and intermittent Fevers. Discasen of the Blood, Liver, Kidneys, and Binder, these Bitters have been most successful. Such Discasen are caused by Virinted Blood, which is generally produced by derangement of the Digestive Organs.

DyspEPSIA OR INDIGESTION, Headsche, Pain in the Shoulders, Cougha, Tightness of the Chest, Dizziness, Sour Eractations of the Stomach, Bad taste in the Mouth Billions Attacks, Palpitain, Brown of the Heart, Inflammation of the Lungs, Pain In the regions of the Kidneys and a hundred other paintin symptoms, are the offerprings of Dyspensia.

They invigorate the Stomach and stimulate the torpid liver and bowels, which render them of unequalled cliency in cleansing the blood of all impartites, and impatting new life and vigor to the whole system.

efficacy in cleansing the blood of all impurities, and imparting new life and vigor to the whole system.

FOR SHIN DISEASES, Eruptions, Tetter, Salt Rheum, Blotches, Spots, Pimples, Pustules, Bolls, Carbuncles, Rigg-Worms, Scald-Head, Sore Eyes, Erysheiss, Itch, Scurts, Discolorations of the Skin, Humors and Diseases of the Skin, of whatever name ornature, are literally dug up and carried out of the system in abort time by the use of these Bitters. One bottle in such cases will convince the most incredulous of their curstre-offset.

Cleanse the Vitlated Blood whenever you find its impurities bursting through the skin in Primples, Eruptions or Soyal cleanse it when you find it should not sucked and sluggish in the vedne; cleanse it when it is foul, and your feelings will tell. You when, Keep the blood pure and the health of the system will follow.

PIN, TAPE and other WORLMS, turking in the system of so many thousands, are effectually destroyed and removed. For full directions, read carefully the circular around each bottle, printed in four languages—English, German, French and Spanish.

Nanaimo and Expenditure. If there is one place in the Colony more than another entitled to complain of not getting its full share of revenue expenditure that place undoubtedly is Nanaimo. From the commencement of the Colony Nanaimo has continued to be a place of great relative importance -- second only to Victoria. The larg est producer, the largest exporter, contributing the most largely towards maritime progress, Nanaimo has been one of the largest and steadiest contributors towards the public revenue of any community in the Colony. And, what recognition have these valuable qualities met with? What return have the people comprising that important community had for all that they have done and contributed? We regret to say that this side of the ledger appears to be almost a complete blank. In the expenditure of public revenue, Nanaimo has been almost wholly neglected left out in the cold—cut off without a shilling. The people have been left to build their own school-houses and for the most part maintain their own schools. They have been left to make their own streets or get on without them unmade; to do without hospitals; to build and maintain their own Literary Institute; and, until very recently, they have had to come all the way to Victoria in search of justice,—nay they have even been denied the advantage of the labor of their own convicts. And all this has been the case, be it remembered, while communities possessing far less claim upon the public revenue have had large grants and liberal annual appropriations for all the above-mentioned objects Nanaimo ought to have and is fully entitled to a good school-house, such as would offer ample accommodation for a male and female department, and admit of proper classification and, of such durable material and architectral pretensions as would make it truly an ornament to the town. This year the Government was liberal enough to place the munificent sum of seven hundred and fifty dollars in the Estimates for the purpose of building a Gaol at Nanaimo. The contract for building the Gaol has just been given out to Mr Finney, of Nanaimo, who had to come all the way to Victoria in order to tender for it ! Why were not the plans and specifi-cations sent to Nanaimo and tenders recived there? Was it intended that the people of Nanaimo should be practically excluded from tendering for a local work? The contract could not have fallen into better bands; for Mr Finney will undoubtedly make as go d a Gaol as it is possible to make for seven hundred and fifty dollars. But anyone must see that the sum is preposterously small. palpably inadequate to make such a Gaol as Nanaimo is entitled to expect. Nanaimo is entitled to something more than a mere lock-up. The old 'bastion,' the only gaol she has ever had, might that. But the time has now come do for that. But the time has now come when the people of Nanaimo have a right to expect that their public buildings shall be something better than rickety and unsubstantial wooden structures. The public buildings of Nanaimo should be of such a character as to give tone and substantiality as well as architectural beauty to the town-somearonitectural beauty to the town—something that the people might be proud of, and such as would give strangers a favorable impression. And the new gaol might well have inaugurated the new era in so far as the public buildings are concerned. When the Estimates were before the Legislature we took occasion to point out the glaring inade-quacy of the sum set down for the Nanaimo gaol, and expressed the hope that it might be largely supplemented; but, unfortunately for Nanamo, its representative was so completely absorbed in the unselfish (?) work of keeping away the Canadian Tariff and cheap freed and hear that he could not well be bread and beer that he could not well be expected to give much attention to other matters, even if that attention would have availed aught; so the insignificent item passed. The Nanaimo gaol ought to be of stone, an abundant supply of the very first quality of which is close at hand. With, say, a couple or one section might have been built now, with a view to extension and completion hereafter; but to expend seven hundred and fity dollars upon a wooden gaol, almost within stone throw of the celebrated Nowin stone throw of the celebrated Nov-castle quarry which is supplying mater-ial for the public buildings of San Fran-oisco, appears to us to be the acmo of unthrift and impolicy. It is little better than throwing the money away. There are many others matters which might be manifold in illustration of our subbe mentioned, in illustration of our sub-ject,—such, for instance as the gross injustice of leaving settlers in the rural portions of the District to make their own roads and bridges, while they are at the same time, compelled to pay very heavy road tax, and, as it would appear, are debarred from having an opportunity even to get work apon the roads ! It seems that all the road work must be done by strangers, and that, too, while there are plenty of good, hon-est men in the locality and from whose

pockets the road-tax is fitched, in want of employment. Such strange freaks of

unfairness are altogether inexplicable, and ought not to be tolerated. There

are many other matters concerning Nanaimo which we could wish to touch upon, but which considerations of space and of the reader's patience

induce us to remit to a future article.

BE I I II. Presented to both Houses of Parliament

by Command of Her Majesty. [C. 299, page 4.]

"The powder drst tried by the Committee in the Boxer-Honry cartridge, and of which they entirely approve, is known as 'Ourtis and Harrey, No 6.? Several other descriptions manufactured at the Government Factory,

descriptions manufactured at the Government Factor, Waltham Abbey, have also been tried, but have not afforded the same uniform accuracy of shooting.

There appear to be difficulties, confined, it is believed, to the question of experse, in producing a powder at Waltham Abbey in all respects equal to 'Ourtis and Harvey, No 6, but the Committee, keeping in view the im portance of maintaining the great accuracy of shooting of the Martini-Henry rifle, recommend that no powde should be used for its ammunition that does not giv results at least retail to those obtained in the Committee's experiments, whether such powder be obtained from the Government Factory or from the trade."

• Mesers Curtis and Harvey's powder was employed by Mr Henry during the competition for accuracy of shooting and the results then attained were satisfactory, the 'Committee have, without making trial of the powder of other manufacturers, continued its use as a standard.

CURTES & HARVEY take this opportunity of sending an extract from the Roport of the Special Committee on the most suitable rifles for the Service; and as THER GUNFOWDER is so highly commended, they think it desirable to communicate the information to their customers and friends. The recommendation equally applies to all marks and descriptions. 74, LOMBARD STREET, LONDEN, K.C. March, 1871.

> HALES VEGETABLE SICILIAN HAIR RENEWER.

ITS EFFECT IS

MIRACULOUS

TT IS A PERVACU AND WONDERFUL.

Larticle. Cures Baidness. Makes kair grow. A better dressing than any coll or pomatum. Bottens brash, and with pair with pair into Beautiful Bilken Tresses. But, above all, the great wonder is the repidity with which it restores JHAY HAIR TO ITS CRIGINAL COLOR.

The whitest and worst looking hair resumes its youth ful beauty by itsues. It does not dye the hair, but strikes at the root and fills it with new life and coloring matter.

The first application will do good; you will see the NATURAL CULOR returning every day, and the old, gray, discolored appearance of the hair will be gone, giving place to lustrous, aboning and beautiful locks. Ask for Hall's Sicilian Hair Renewer; no other article is at all like it in effect.

How English Visitors are taken in and Done for at San Francisco.

California paper narrates how passen ers from Australia are victimised at San Franciso. " By the last steamer a certain scion of a royal family in England, arrived and registered himself at the Occidental and registered himself at the Occidental Hotel. Feeling a little dusty after his journey, he went into a barber shop in the immediate vicinity, for the purpose of indulging in the luxury of a shave and shampoo. He hung his coat on the rack and submitted himself to the tonsorial operations with perfect abandon. After the cleaning and brushing had been completed, he put himself inside his coat and felt for his pocket book to pay the bill. But his portmonnaie was gone, and although every receptacle about his person was examined the missing book, his person was examined the missing book which contained £500 in English bank notes which contained £500 in English bank notes and a small sum in sovereigns, could not be found, and he was obliged to borrow 75 ets to psy the barber's bill. On the same evening when another of our English travelers was about to retire be put his coat outside the door in the hope that it would be nicely brushed for him. Unfortunately he left several hundred dollars in notes and coin in veral hundred dollars in notes and com in the coat and in the morning, much to his dismay, he recovered that ariole of dress as dusty as ever but minus the money. Straightway he went to the office of the hotel and said to the clerk—' Mr Clark, I've been robbed, I've been robbed, sir!' and be then detailed the facts of the case. The clerk told him he ought to feel very glad that he go: his coat back, and advised him not to put his money outside his hedroom door here.

Estimated surplus, £87.000. The estimated revenue without any change in the taxation, would have only reached £69,595,000, with a deficit of £2.713,000. Mr Lowe has estimated a decrease on almost every branch of the revenue, instead of the usual increase:—professedly on the ground that the past year has been see executionally preparent that we can been so exceptionally that the past year has been so exceptionally prosperous that we cannot count on its continuance—really, we imagine, because 1872-3 will have heavy special burdens of its own, for which he wants to smooth the way. The sudden death of the Right Hon J R Davison, Member for Durham, and Judge-Advocate General is announced. He died of heart disease at a friend's house Suiffolk where he retired to rest annarently. is full. Mr Davison was a man whom Ministers thought more than the public, and it will be difficult to fill his place. The most prominent member named for it is Mr T Hughes, an experienced lawyer, who has throughout his carreer devoted much of his attention to the Army, and has frequently belied to codify Army Regulations. Mr John Bright is suffering from erysipelas. The trial of Boulton and the other personators of women is expected to come on in the sittings after the present term. It is understood that the office of Judge-Advocate-General will not for the present be filled up. Mr E J Reed, late Chief Constructor to the Admiralty, is about to leave for Russia, to which country he has been invited by the Government of the Czar. Lord Penzance was attacked by sudden illness, and the sitting of the Probate was necessarily suspended. is full. Mr Davison was a man whom Minis the Probate was necessarily suspended. Mr. Sowler, Q.C., is dead. The licensed victuallers Sowier, Q.C., is dead. The licensed victuallers throughout the country are holding meetings to oppose Mr Brace's Bill, which they insist will be the ruin of thousands, and will not effect the object proposed. The Emperor Napoleon has attained the 63rd year of his age. It is stated that the ex-Imperial family intend to leave Chiselburst shorly. Earl Cowper has heen appointed to come of Genleave Chiselhurat shorly. Earl Cowper has been appointed to command the Corps of Gentlemen at Arms in place of the Marquis of Normandy. General Sir Justin Sheil, of the Indian Army, and brother to the late Richard Lalor Sheil, is dead.

South Africa.

The papers lately received from the Cape The papers latery received from the Cape of Good Hope give details of the calamity at Victoria West. On the 10th of February a tremendous flood, supposed to be caused by the tursting of a waterspout, occurred at Victoria West, which in the space of two or Victoria West, which in the space of two or three hours washed a way no less than thirty houses and destroyed nearly one hundred lives. Whether the flood was actually the result of a waterspout or of one of those terrific thunderstorms which are so common in the interior of that colony will probably never be known. The flood seems to have commerced at the farm of a Mr Hugo some distance from the town. His house, homestead and stock were all swept away, his wife and all his children but one infant—which he managed to save by swimming which he managed to save by swimming with it in his arms—were dorwned. He describes the scene as appalling beyond measure. First he and his wife heard a sound his iron falling from the sky. They looked out and saw a huge black mass of cloud sweeping along the earth towards them. They caught up the children and rushed from the house, but it was too late and everything was swept away in the torrent save Hugo and the infant—even their escaps was little short of miraculous. A public meeting had been held in Capetown to consider the means of relieving the sufferers, and it had been adjourned to get accurate information as to what will really be needed.

INTERESTING TO THE LADIES .- Paris has long been leader of the fashious and France the emporium of fashionable fabrics. The functions of both, in this respect, have been greatly paralysed by the late terrible war, and the revolution which followed continues to interrupt the resuscitation of these func-tions. The consequence is that all French manufactures, especially silk goods, have experi-need a very decided upward tendency and are still rising. It is, however, a for-tunate circumstance for this community that Messrs J P Tunstall & Co, of London, happened to make a very large purchase just to time to escape the great rise. These good-arte from the celebrated laterty of the bea-makers in France (C J Bonnet & Cie. of Lyons) and the ladies of Victoria will be Lyons) and the ladies of Victoria will be pleased to know that a very rich assortment from that large purchase was received at the London House by the last eleamer, and that the patrons of J H Turner & Coare to get the full benefit of the favorable circumstances under which these goods were bancht.

A well-manned boat which had pulled round the course with them was near and together with some cannet cached them in time to save the crew, six in number. Gassett's boat kept on her course and won the race. On seeing the accident Masters lowered sail and ran for Herring's boat to render assistance. Had it not been for this it is thought he would have won the race.
